# Consider Sanatorium Water Supply

Waterboard Puts Matter Over Until Next Regular Meeting-Commissioners Meet Supt. Corkery and Also Decide on Location For the Foundations For the Buildings.

Thursday evening there was a special meeting of the board of water commissioners for the purpose of considering the matter of extending the water main to the tuberculasis sanatorium, below Thamesville. It will be necessary to continue the six inch main in the highway a distance of 1,800 feet at an expense of about \$1,800, while the state will have to bear the expense of purting in the pipe from the highway about 1,000 to 1,200 fet to the point where the buildings will be.

The board discussed the matter for about an hour, and shally put the matter over for the next regular meeting, at which time they will be a position to know the needs of the sanatorium, and they will take up all the propositions concerning extending the mains outside the city. The board is favorably disposed in do all it can, and if the sanatorium was within the city which will be three atories in height which will be three stories in height which will be three stories in height. and they will take up all the proposi-tions concerning extending the mains outside the city. M'ATTAVEY HELD FOR SUPERIOR COURT Postmaster Caruthers Put Stop to It Doctors Say He is Not Safe Man to Be at Large.

The efforts that are being made by the various postmasters throughout the country to prevent the abuse of the ceneral delivery is deserving of great commendation. The general delivery department of a postoffice is intended for transients, as the government prosides letter carriers to deliver mail to all parts of the city, and the deliveries are so arranged that mail is delivered formptly to the addresses.

Postmaster Caruthers of this city has kept a careful watch of the general delivery for many years and clandestine correspondence has been greatly restricted and almost entirely climinated. While it is probably an impossibility to stop all of this kind of correspondence, still the movement has the hearty support of all of the configuration.
